

“Built for anything you can throw at it”

The Forté AP (All Purpose) is Baratza’s response to calls for a commercial grade grinder that does it all—within a compact footprint. Belt-driven ceramic flat burrs and included portaholder make this the perfect grinder for an efficient, repeatable espresso workflow.

Designed as a commercial solution for low-volume cafes, the Forté AP is a rock-solid espresso grinder with high-capacity and feature-density. Operated by a touchscreen, the Forté AP has two grind modes: by time and by weight. Each of those modes carries three presets and a manual option, giving you plenty of ways to conveniently switch from one dose to another.

Its small footprint, multifunction touchscreen, high daily capacity (5lbs per day) and sturdy grind size adjustments make the Forté AP a great choice for low-volume espresso in the café like decaf or single-origin offerings. It is built with 54mm flat ceramic burrs, engineered to produce an accurate and precise grind, delivering exceptional cup quality for brew methods from espresso to French press.

Coffee Grinder

Technical Specifications
