GENERAL DESCRIPTION

EDM+ is a multi-purpose enzymatic drain treatment that liquifies solid waste material such as starch, carbohydrates, protein, grease, and fats to keep drains flowing freely. When used regularly as directed, this powerful probiotic formula will naturally maintain your entire drain system. This product is suitable for use in sewage plants, sumps, septic tanks, portable toilets, and grease traps. EDM+ can also be used for sinks, showers, tubs, floor drains, and garbage disposals to ensure drains and pipes are flowing freely.
