Type	Induction Chafers
Usage	Induction Only

## Notes & Details

Serve signature dishes in style with this Acopa Manchester 6 qt. round stainless steel induction chafer with glass top and soft close lid! This chafer's stainless steel construction perfectly balances elegance and durability. While heavy-duty stainless steel ensures it's equipped for consistent commercial use, its sleek finish and appearance make it a perfect choice for upscale events and a luxurious addition to your table. A hydraulic hinge mechanism makes this chafer easy to use by closing the lid slowly and smoothly, and anti-noise plastic knobs on the corners reduce sounds that can disrupt the atmosphere of special events. Plus, the lid is quickly detachable for convenient cleaning and boasts an adjustable level support, while its recessed shape allows you to lift the pan easily. There is also one food pan included.

A wide, tempered glass window allows guests to easily see the contents of the chafer without opening it, thus keeping more heat inside and preserving the freshness of the food, all while remaining more sanitary than traditional chafers. For ease of use, the induction chafers require no water pans to operate. An induction-friendly bottom allows you to use this chafer with induction warmers for the ultimate convenience. Upgrade your food presentation and be prepared for a variety of special occasions with this Acopa stainless steel chafer!
