Notes & Details

Serve warm and delicious food with this Acopa wrought iron pillar chafer kit with roll top lid. This chafer has a durable iron construction that is dependable and built to last. It also has two sturdy side handles for easy transportation.

By purchasing this kit, you have the benefit of getting everything you need in one simple set. Two fuel holders underneath the pan make for even heat distribution, ensuring your guests always receive warm food. This chafer has a 4" deep water pan to prevent your food from drying out and getting burnt on the bottom of the food pan. The food pan is 2" deep, which gives you plenty of room for filling it with your most delicious offerings.

The chafer cover keeps things sanitary by minimizing food exposure overhead, and the roll top lid makes serving and refilling exceptionally easy. With an ample capacity, this chafer is ideal for serving a variety of appetizers, entrees, or side dishes, and it's just what you need for your hotel, restaurant, or catering operation.

Kit Includes:

- Iron chafer stand
- Stainless steel dome chafer cover
- 2" deep food pan
- 4" deep water pan
- (2) Fuel holders
