Type	Standard Chafers

Notes & Details

This Acopa Supreme 8 qt. full size chrome accent roll-top chafer is excellent for busy buffets, breakfast bars, and catered receptions. With an elevated fuel shelf and two fuel holders, you'll obtain even heat distribution, keeping your food items hot and ready to serve! Made of highly polished, 18/8 stainless steel, this chafer is the perfect accompaniment to any modern decor. Thanks to its stylish chrome accents, it adds an upscale appeal to your venue.

Furthermore, the roll-top design allows the cover to be opened entirely or stopped at the 180 degree position, making it easier for guests to select servings and employees to quickly refill chafers. The ventilated sides reduce condensation, avoiding water droplets dripping as you open the lid and diluting your savory food. The handle on the front of the cover also allows for safe and easy opening and closing. Made of heavy weight stainless steel, this chafer is built to last through transports, set ups, and teardowns.

Kit Includes:
- 4" deep water pan
- 2 1/2" deep food pan
- (2) fuel holders
- Lid
- Frame
