

Introducing the
CORAVIN®
AERATOR

**Softer, silkier, more aromatic wines -
now instantly available by the glass.**

The Coravin Aerator, used with your Coravin Wine Preservation Opener, enhances your wine experience by immediately mixing the right amount of air with the wine as you pour. This lets your glass of wine breathe without lengthy decanting, while ensuring the rest of the bottle remains perfectly preserved.

**Breathe
more life**
into wines
by the glass.

**EXPANDING
THE CORAVIN EXPERIENCE**

**ENGINEERED FOR
PERFORMANCE**

Constructed from premium materials and featuring stainless steel accents, the Aerator uses 24 carefully placed and sized holes maximizing wines' contact with air.

**BETTER TASTING
WINE BY THE GLASS**

Thin streams of wine are exposed quickly to air, producing similar results to decanting. This process yields smoother, more aromatic wines.

**COMPATIBLE ACROSS
THE CORAVIN LINE**

Fits securely on the spout of all Coravin Wine Preservation Openers to aerate any amount of wine. Simply press on and pour!
