Held	US #30 Screen:	1% Maximum
Held	US #40 Screen:	20 - 50%
Held	US #80 Screen:	45 - 75%
Through	US #80 Screen:	5% Maximum

### **Allergens:**

Our facility is dedicated to the storage, handing and processing of corn and dry milled corn products. This product does not contain major food allergens other than trace amounts of soy that may be present as a result of cross-contact from customary methods of harvesting crops as well as from the use of shared storage and transportation equipment. This product is certified gluten free by GFCO.

### **Micro:**

Cornmeal is made from corn, a raw agricultural commodity. While the corn is cleaned, milled and handled in a sanitary environment, the process does not have a kill step. Cornmeal is “ready to cook” and not “ready to eat”.

### **GMO:**

This product may contain genetically modified organisms that are approved in the USA for use in human foods.
