COMBINATION PROOFING CABINETS

COMBINATION PROOFING CABINETS

AVALON
MANUFACTURING

DONUT ◆ BAKERY ◆ CUSTOM FOOD EQUIPMENT

Avalon Proofing Cabinets are available in both Stainless Steel and Aluminum. All doors, inside racks, supports and heater units are totally removable without tools. Heater/humidity control unit has all exterior mounted controls allowing operator to adjust settings without opening the door. The door is 3/16" thick impact resistant clear polycarbonate panel sealed to a heavy duty stainless steel or aluminum mitered frame. These units come standard on heavy duty casters (2) with locking brakes. (Accommodates a wide variety of screens and pans).
