

## AvaMix CFP7D Dice Continuous Feed Food Processor with 7 Discs - 3/4 hp

#177CFP7D

### Technical Data

Width	9 Inches
Depth	22 1/2 Inches
Height	20 Inches
Phase	1 Phase
Voltage	120 Volts
Wattage	550 Watts
Features	Includes Dicing Kit
Hopper Style	Half Moon
Horsepower	3/4 HP
Number of Discs / Blades Included	7
Plug Type	NEMA 5-15P
Power Type	Electric
RPM	270 RPM
Speeds	1
Type	Continuous Feed Processors

### Features

- Powerful 3/4 hp motor minimizes prep time to keep up with the demands of a busy commercial kitchen
- Built-in safety mechanism stops motor when the pusher is opened more than 12" to prevent injury
- Kidney-shaped hopper, cylindrical hopper, and plunger expedite food processing in busy kitchens
- Includes 7 discs for dicing, grating, shredding, and slicing
- Great for processing a wide variety of vegetables

### Certifications

5-15P

ETL Sanitation

ETL US & Canada

## Notes & Details

Slice, grate, and dice fresh ingredients for your most popular dishes with the AvaMix CFP7D continuous feed food processor! This food processor features a 3/4 horsepower motor with a convenient continuous feed chute to ensure you can produce large quantities of ingredients during your busiest hours.

For premium versatility, this food processor comes with three slicing discs to cut food into 5/64", 5/32", and 3/8" pieces, a 3/8" dicing grid, and another three grating discs to shave food into 5/16", 5/32", and 1/8" sizes. Discs are easily changed thanks to the processor's simple design, and the included pusher lets you make sure every bit of food is chopped in each batch. With the addition of the 3/8" dicing grid and 3/8" slicing disc, this unit is set up to dice right away. The additional ability to not only slice, grate and shred - but also dice gives near-limitless prep options in a fraction of the time it takes to do manually.

A 2" diameter cylindrical hopper and a 6" x 3" kidney-shaped hopper are built into the top of the unit for maximum output. For safety, the motor stops when the attached pusher is opened more than 12" above the opening, and thanks to its cast aluminum body, you can be sure this food processor is built for long-lasting durability at a price that won't break the bank.
