

AvaMix Revolution CFP348D Continuous Feed Food Processor with 8 Discs & Disc Rack - 1 hp

#928CFP348D

Technical Data

Width	11 Inches
Depth	12 Inches
Height (with Bowl)	18 1/2 Inches
Height (with Continuous Feed)	23 Inches
Amps	6.125 Amps
Voltage	120 Volts
Wattage	735 Watts
Hopper Style	Half Moon
Horsepower	1 hp
Number of Discs	8 Discs

Features

- Featured pulse button and powerful 1 hp direct-drive motor
- Continuous feed attachment allows for constant slicing and grating, for less manual food preparation
- Includes 8 discs and 1 disc storage rack
- For maximum safety, the blade will not spin until the continuous feed attachment is locked
- Great for a wide variety of vegetable slicing and grating applications

Certifications

ETL Sanitation

ETL, US & Canada

5-15P

Technical Data

Plug Type	NEMA 5-15P
RPM	1500 RPM
Speeds	1 Speed
Type	Continuous Feed Processors

Notes & Details

Cut down on prep time while cutting and mixing a variety of ingredients with the AvaMix Revolution CFP348D 1 hp continuous feed commercial food processor! With 1 hp, this robust unit packs the requisite power to handle large quantities of fruits and vegetables. Additionally, the pulse button makes processing food even faster and easier, since you can pulse until your desired consistency is achieved. Its build includes a durable base with nonskid feet for secure use, while its direct drive motor with stainless steel motor shaft and stainless steel blades will hold up to the demands of commercial operations.

The CFP348D comes with all of the standard attachments plus an additional 6 discs and rack for a complete package, including a continuous feed attachment to further increase prep speed, as well as 5/32", 5/64", and 1/32" slicing discs, 5/64", 1/8", and 3/16" grating discs, 5/32" and 5/64" julienne discs, and a plastic ejector disc for improved flexibility. This item also comes with a disc rack for easy organization. The continuous feed attachment, which has a 6" x 3" kidney opening and 2" cylindrical opening, is ideal for processing vegetables like cucumbers, carrots, celery, and other similar product. The kidney chute, which has an included pusher, is equipped with a magnetic failsafe that automatically shuts down the motor when the pusher is removed. As an added safety precaution, the blades will not spin unless the continuous feed is completely locked in place.

The AvaMix CFP348D is easy to control, as it has a simple on/off switch located conveniently on the side. It's also compact in size, measuring just 10" x 12" x 18 1/2", which makes it suitable for establishments that have limited counterspace. And because it disassembles, you can easily store it away when not use. The food processor requires a 120V connection for operation.

Included Discs:

- 5/32" slicing disc
- 5/64" grating disc
- 1/32" slicing disc
- 1/8" grating disc
- 3/16" grating disc
- 5/32" julienne disc
- 5/64" julienne disc
- 5/64" slicing disc
