Notes & Details

Quickly turn fresh oranges, grapefruit, lemons, or limes into delicious juice with the AvaMix CJ180 electric commercial juicer! This AvaMix juicer features 3 different optimized reamers that are ideal for small, medium, and large citrus fruits. Each reamer is durably built to ensure long-term use, while their simple designs make them easy to quickly install into the juicer. This unit comes with a 9 3/4" high spout clearance to accommodate a variety of pitchers, glasses, or blender jars, and thanks to the pulp guard, you can be sure that the juice you produce is finely strained.

For easy operation, this electric citrus juicer features a simple on/off switch and an 1800 RPM quiet motor to produce juice without interrupting the workflow or conversation of your business. Non-skid feet keep the juicer stable during use, so you can juice fruit after fruit with minimal downtime. The splash guard keeps the juice and pulp contained when the unit is being operated, and thanks to its heavy-duty cast aluminum construction and acid-resistant finish, you can be sure this juicer will last your business a long time. This unit requires a 120V electrical connection.
