## Notes & Details

If you need a new jar pad for your high volume BX1GRG series blender, this AvaMix 928PJARPAD3 serves as a direct replacement! The jar pad on a blender is constantly being abused as the jar gets attached and removed, and over time it can start to tear or show other signs of wear. If that happens, replace it promptly, as the blender pad helps shield the blender base from physical damage and makes it much easier to clean.
