Notes & Details

The AvaMix Apex HBX10002J 48 oz. commercial blender combines raw power and maximum simplicity in a blender that can stand up to even the busiest bars and restaurants! Its powerful motor makes it a true workhorse in any commercial setting, while the smooth touchscreen display makes operation fast and easy to learn. The touchscreen can be used with either wet or dry hands, saving you time by allowing you to go directly from washing your hands to blending margaritas, without having to search the bar area for a clean, dry towel. It's a great multi-purpose blender, perfect for everything from cocktails to spreads and dressings, and boasts plenty of practical, useful features to keep your business running smoothly.

With 5 reprogrammable functions, you can set up this blender to make your most popular recipes with a push of a button. This blender includes a removable sound enclosure, which muffles the motor during operation, reducing the blender's overall noise. Whether you're making margaritas, smoothies, sauces, or soups, this commercial blender will ensure perfectly smooth drinks without unwanted ice or fruit chunks. Add ingredients to the blender at any stage in the mixing process by simply removing the clear center lid and adding additional ingredients into the jar.

This blender's 3 1/2 hp motor boasts 30,000 RPM and 1800W, making it more than capable of handling ice crushing, drink mixing, smoothies, house-made spreads or salsa, and anything else you can throw at it. This unit requires a 120V connection for operation.
