Notes & Details

These Avantco 177200900019 adjustable legs are a direct replacement for the ones that came standard with your Avantco FBF1824, FBF2424, FF40, FF50, and FF100 fryers. They provide optimal stability and are adjustable between 6" and 7" to account for uneven flooring in your kitchen and get the perfect height for your fryer. Its stainless steel construction ensures your fryer is fully supported while giving you enough clearance to regularly clean beneath your unit. Replace a worn or damaged leg right away so that your fryer rests at the height that is suitable for you.
