- Great for restaurants, grocery stores, and butcher shops

Notes & Details

Seal your freshly made sausages with this Avantco manual sausage clipping machine. This sausage clipper is designed to quickly and conveniently seal sausage casings. The manual operation is easy to use and doesn't require electricity. Better yet, it's sure to save you time and labor compared to clipping by hand, making it an ideal addition to your establishment.

This sausage clipping machine is made of corrosion-resistant chrome-plated iron. The sturdy base ensures stable use, while the gravity hammer helps to ensure that the clips are securely fastened. It boasts an automatic clip feed, and it comes with 1,000 clips so you can begin using this machine immediately! This versatile clipping machine is also perfect for sealing mesh bags, making it a convenient tool for restaurants, meat processing facilities, bakeries, and grocery stores!
