Notes & Details

The Avantco CMA2B automatic coffee maker with 2 decanter warmers is the affordable and durable solution to your coffee needs! Designed for easy use with simple push button operation, this coffee brewer features 2 decanter warmers, 1 lower and 1 upper, so you can always have a warm cup of regular or decaf ready. Ideal for restaurants and cafes, this coffee maker is the perfect solution for your business or facility. The brewer utilizes a fixed, non-adjustable temperature. The unit brews coffee between 190 and 200 degrees Fahrenheit for a rich, consistent product every time.

Its external stainless steel construction gives it a sleek appearance and makes it easy to clean. To ensure you can keep up with busy hours, this compact brewer can produce up to 60 8 oz. cups of coffee per hour. This coffee maker connects to a 3/8" rear mounted water line that fills the reservoir. With independent controls for warming and brewing, you can easily set this coffee machine to fit your needs. This unit requires a 120V electrical connection for operation.
