Type	Coffee Urns

Notes & Details

Ensure your coffee is delicious and flavorful day after day with this Avantco CUC60 60 cup capsule coffee urn. Perfect for caterers, schools, churches, and offices, this easy-to-use coffee urn makes a large amount of coffee at one time so you can quickly serve a crowd. It is designed to keep coffee hot and fresh for hours, lasting through your entire catering event or meal time.

Using this durable coffee machine urn couldn't be easier. It comes with a sight glass so you can easily tell when it's time to brew more coffee. This unit also features a very practical design. With its removable lid, brew basket, and stem, setting it up and cleaning the unit is a breeze. Additionally, a maximum fill line inside the urn helps prevent accidental overflows. A simple on / off switch makes it easy to get brewing right away, and its thermostat system will take care of the rest.

This urn is made of sturdy single wall stainless steel, and the exterior has a polished finish that makes it an attractive addition to any coffee station. This exterior also makes the unit easy to clean. Designed with safety in mind, this urn comes with a heavy-duty locking lid that prevents spills during movement, while the plastic handles give you a place to grip the urn safely, staying cool even when the urn is hot.

Thanks to its thermal limiter with an auto reset limit on, this coffee machine urn helps prevent boil dry accidents. A thermal fuse adds extra safety in case this appliance's boil dry protection fails, shutting off the appliance to give you peace of mind that even during busy shifts you can count on it to operate within safe parameters. This unit requires a 120V electrical connection to operate.
