Power Type	Electric

## Notes & Details

Take the convenience of range cooking foods to your countertop or on the go with this Avantco 177EB202SBSA double burner solid top stainless steel portable electric hot plate. With 1,800 watts of cooking power, this hot plate allows you to easily prepare meals anywhere! It features a side-by-side design with (2) 7" burners. From stir-fry stations to omelet bars, this unit gives you the cooking power you need in a portable form, all without the open flame and fuel needed to power a comparable butane range.

This hot plate boasts a durable stainless steel construction. It features double sealed cast iron burners with a round French-style design that are also durable and easy to clean. With simple infinite controls as well as its lightweight and portable design, this versatile unit is easy to use and take with you on the go, perfect for pan frying, sauteing, and simmering at catered events and buffets. This unit sits on non-slip rubber feet to ensure stability and safety during cooking. It requires a 120V electrical connection to operate.
