Notes & Details

Maximize your pasta output with this Avantco FPC11 11 gallon single tank pasta cooker. This unit has 6 baskets, making it easy to prepare a multitude of pasta and noodle styles simultaneously. It offers 70,000 BTU of power, and it boasts an ample 11 gallon water tank. This tank is manually filled, and it features a starch skimming drain to easily drain out water. For easy temperature adjustment, this pasta cooker features simple thermostatic knob controls. This floor model boasts a compact, standalone design with 4 sturdy legs for secure operation.

Constructed from stainless steel, this unit is designed to live up to your commercial kitchen needs. The flue, pot, shelf, and drain plugs are type 316 stainless steel while the outer shell and door are type 304 stainless steel. This pasta cooker includes a rear backsplash to prevent messes, and it has overflow protection to keep the water from spilling out. It is equipped for a natural gas connection but it is field convertible to liquid propane.
