Notes & Details

Maximize your buffet offerings with the convenience and efficiency of this Avantco IDIW300 16" x 16" drop-in induction chafer warmer. Thanks to its built-in power receptacle, you can daisy-chain this unit with additional warmers, up to 5 units, giving you the flexibility to operate multiple warmers at once. With no open flame, this induction warmer is a safer alternative to conventional chafer fuels. Easy-to-use, this warmer is perfect for buffets and catered events!

This induction warmer drops into your countertop and features a durable, sleek black-colored ceramic glass top with a durable powder-coated metal base. It has remote operator controls with three power levels, including low, mid, and high temperature settings. Plus, it works with 2/3 size induction-ready chafers. This unit comes with both a 6" cable and a 48" power cable. This induction warmer requires a 120V electrical connection and has a power output of 300W.
