Type	Mobile
Usage	Indoor
Well Type	Open / Dry Well

Notes & Details

Keep all of your menu items piping hot and readily available with the Avantco STE-2MG two pan open well mobile electric steam table, undershelf, overshelf and sneeze guard! Durable, sleek, and easy to operate, this two-well steam table offers an incredible value to any business. This powerful holding unit can hold two full size food pans full of pasta, vegetables, meat, and side dishes in each 500W well. It's constructed of medium-duty stainless steel with galvanized legs and 8" deep wells, ensuring the durability and reliability you need at your buffet or catered event. Plus, it comes with casters that provide mobility and help ensure easy service and cleaning.

To keep your extra serving utensils, food pans, and lids close at hand, use the undershelf for storage. The separate overshelf is also great for storing supplies, as well as for serving plated meals. Its attached acrylic sneeze guard panel even helps to shield your culinary creations from harmful pathogens. It's easy to install, too.

For extra convenience, the steam table features a polyethylene 8" deep, 1/2" thick cutting board that gives you a little extra work space for changing out food pans or filling plates. For optimum heating versatility, each individual 500W well is independently controlled by an infinite control knob, which allows you to simultaneously heat 2 food items at different temperatures. Its design is perfect for special events, supermarket samples, or seasonal additions to a cafeteria line. Although intended for dry use, this steam table can be used wet with a compatible spillage pan (sold separately). A 120V electrical connection is required.
