Notes & Details

Keep all of your menu items piping hot and readily available with the Avantco STE-4MGH four pan open well mobile electric steam table with undershelf and overshelf with sneeze guard! This powerful holding unit can hold four full size food pans full of pasta, meat, or side dishes in each 750W well. It's constructed of medium-duty stainless steel with galvanized legs and 8" deep wells, ensuring the durability and reliability you need at your buffet or catered event. Plus, it comes with casters that provide mobility and help ensure easy service and cleaning.

To keep your extra serving utensils, food pans, and lids close at hand, use the undershelf for storage. The separate overshelf is also great for storing supplies, as well as for serving plated meals. Its attached acrylic sneeze guard panel even helps to shield your culinary creations from harmful pathogens. It's easy to install, too.

For extra convenience, the steam table features a polyethylene 8" deep, 1/2" thick cutting board that gives you a little extra work space for changing out food pans or filling plates. For optimum heating versatility, each individual well is independently controlled by an infinite control knob. Although intended for dry use, this steam table can be used wet with a compatible spillage pan (sold separately). A 208/240V electrical connection is required.
