Style	Floor Model Heated
Top Material	Stainless Steel
Type	Stationary
Usage	Indoor
Well Type	Open / Dry Well

Notes & Details

Keep all of your menu items piping hot and readily available with the Avantco STE-5SG five pan open well electric steam table with undershelf! This powerful holding unit can hold five full size food pans full of pasta, meat, or side dishes in each 750W well. This unit is constructed of medium-duty stainless steel with galvanized legs and 8" deep wells, ensuring the durability and reliability you need at your buffet or catered event.

Use the undershelf to store extra serving utensils, food pans, or lids to keep all of the tools you need close at hand. For extra convenience, the polyethylene 8" deep, 1/2" thick cutting board gives you a little extra work space for changing out food pans or filling plates.

The included overshelf provides vertical storage space as well, making it easy to store commonly used tools, utensils, and condiments or to serve a plated meal. It also features an acrylic sneeze guard panel to shield your culinary creations from harmful pathogens. Best of all, installation couldn't be easier! It attaches using simple screws, which fit in pre-drilled holes within the steam table.

For optimum heating versatility, each individual well is independently controlled by an infinite control knob. Although intended for dry use, this steam table can be used wet with a compatible spillage pan (sold separately). A 208/240V electrical connection is required.
