Notes & Details

Add this Avantco W300SS 6 qt. round stainless steel warmer to your array of kitchen equipment so you can warm your soups and sauces to the perfect serving temperatures! This kettle features 300 watts of heating power to ensure your food stays at safe, delicious temperatures from 100-212 degrees Fahrenheit, and its sleek stainless steel exterior creates a professional and clean appearance. While this warmer can easily hold a #10 can, a 6 qt. insert allows you to stock up on your most popular soups or sauces. The thermostatic control dial makes it easy to control the heat inside the kettle, while the hinged lid helps conserve energy and prevent contamination when not in use. For convenience and fast set up, this unit also includes two sets of magnetic soup labels so you can properly advertise to your customers. This warmer requires a 120V electrical connection.
