Type	Heat Lamps

Notes & Details

Keep your french fries, empanadas, onion rings, or fried chicken fresh and ready to serve with the Avantco W62 free standing two bulb heat lamp / food warmer! This free standing food heat lamp is quite versatile thanks to its adjustable height arm, so you can control the intensity of the heat reaching your food and prevent over-drying. The Avantco free standing two bulb food warmer lamp is made of heavy-duty aluminum to withstand the daily demands of your busy fast food restaurant, concession stand, or snack bar.

Two clear 250W infrared bulbs are included, plus this unit comes with two red coated 250W bulbs, too. The shatter-resistant red bulbs are rated to last for up to 6,000 hours and provide a warm light to show off your food and help your dishes sell themselves to hungry passers by. With this bulb warmer, you have the option to utilize either clear bulbs or red bulbs depending on your application and lighting preference.

This model comes with a full size steam table pan for convenience. Made from sturdy 24 gauge 18/8 stainless steel, the standard weight full size steam table pan features double reinforced corners that add strength where the pan takes the most abuse. This impact-resistant pan makes cleaning and refilling a breeze. This hotel pan has built-in, anti-jam stacking lugs to enable hassle-proof separation and easy lifting of the pan. Plus, it can go from freezer to oven to serving line without bending, which ensures that it will sit flat in the warmer and hold its shape under the toughest conditions. This pan is dishwasher, freezer, and oven safe, and it is even NSF listed to ensure sanitation.

In addition to the pan, this warmer comes with a chrome-plated footed pan grate to keep your food from sticking to the bottom of the steam table pan. The raised grate also serves as a rack for items that should not sit in liquid or juices. It also helps to drain foods that are boiled or fried to help keep them crisp. This grate is sized to fit within the full size steam table pan.

This Avantco food warmer requires a 120V electrical connection and has a total output of 500W. The warmer is ETL Listed.
