## Plan View

## Notes & Details

Perfect for toasting a variety of items from buns to bagels and more, the Avantco BT18H vertical contact conveyor bun toaster allows you to quickly and easily toast delicious, fresh buns during peak hours without drying them out! This bun grill toaster's durable, high-quality gears and 2400/3200 watts of heating power can deliver up to 1400 toasted bun halves per hour, and its compact footprint enables it to help your business grow while taking up minimal countertop space. To ensure your buns or bagels are evenly toasted, this unit features a 16" wide, auto-adjusting conveyor for various sizes of bun heels, crowns, or pieces of bread (up to 1" height) which has 7 different speed settings.

Built for quality and longevity, the BT18H toaster features a steel griddle plate that can be thermostatically adjusted from 85 to 500 degrees Fahrenheit, and its stainless steel construction gives this product excellent longevity. Thanks to a butter roller and butter pan, this vertical conveyor bun toaster ensures that all of buns or bagels will be quickly and consistently covered with the perfect amount of butter, saving your employees time and helping them keep up with customer demand. It features an easy-to-clean and convenient removable catch tray to collect toasted buns and crumbs.

A free pack of PTFE non-stick release sheets is included with each model for your convenience! For optimum machine performance and maintenance, it is highly recommended that they be installed and used with all models. This unit requires a 208/240V electrical connection for operation.
