Notes & Details

Create authentic, custom, made-to-order stir-fry dishes with this Avantco stir-fry station kit with wok induction range! This convenient kit includes 48 pieces to help you launch your own stir-fry-making station. With everything you need within arm's reach, this station is perfect for use in buffets and catered events. Made-to-order dishes will be easy and efficient, and the work station is just the right size for smaller operations on the go. The stainless steel construction creates a sleek and professional presentation, while also providing exceptional organization to keep your station operating with ease. This kit has everything you need all in one place, eliminating extra time and work when starting your own stir-fry station!

All the components of this kit are conveniently contained in the Regency 16-gauge 304 stainless steel base. It includes (1) 1/3 size and (6) 1/6 size stainless steel steam table pans for keeping ingredients on hand as well as providing convenient storage. These pans are ideal for both hot and cold food, and settle directly into the base with ease. (36) 15 oz. foam brick cold packs are also included to keep your perishable food at a safe temperature! A 4 oz. ladle with a hollow, stainless steel handle and a 4" wok spatula with a wooden handle both come with the kit, making both cooking and serving techniques specialized for your stir-fry station! Also included is (1) set of 17 3/4" bamboo cooking and serving chopsticks; sturdy, solid, and attractive, this chopsticks set is the superior choice for all of your Asian cooking and serving applications.

This kit features a 208-240V, 3500 watt Avantco countertop wok induction range (Item #177IWC35 - see product page for details). The compact size paired with the light weight element bring convenience and portability to your station. The surface of the range only heats the bottom of induction-ready cookware and does not retain heat, making it safer for use around guests. The heat energy absorbs immediately into the cookware, allowing you to cook food quickly and efficiently. It accommodates up to a 14" wok and requires a 240V electrical connection for operation.

Set Includes:

- (1) Avantco countertop wok induction range / cooker - 208-204V, 3500W
- (1) Regency 44" x 28" stainless steel base
- (1) 4" wok spatula with 16 1/2" wood handle
- (1) 4 oz. stainless steel ladle
- (1) 17 3/4" bamboo cooking / serving chopsticks set
- (1) 1/3 size, 6" deep stainless steel steam table / hotel pan
- (6) 1/6 size, 6" deep stainless steel steam table / hotel pans
- (36) 15 oz. foam brick cold packs
