Notes & Details

This Avantco FBF1824LP liquid propane 110-125 lb. flat bottom donut floor fryer with millivolt controls is perfect for frying funnel cakes, donuts, or other wet batter products. The flat bottom on this fryer ensures that wet batter products do not overlap, and instead, have enough flat space area. With a 110-125 lb. oil capacity, this fryer is the ideal unit for donut shops, restaurants, concession stands, sports stadiums, farmers markets, or carnivals. With an ample amount of cooking space and durable stainless steel construction, this fryer will be sure to last a long time.

The stainless steel front, door, sides, drip tray, and splash guard provide ultimate durability and are resistant to rust. This ensures that you get the most use out of your fryer, while minimizing the time and money spent on repairs. The millivolt controls, adjustable between 200-400 degrees Fahrenheit, allow you to keep the oil at the perfect temperature for whatever you're cooking. The convenient drip tray also doubles as a lid, keeping your fry pot safe from dust afterhours.

The 18" x 24" flat bottom design of this fryer provides unique benefits. This fryer does not have a cold zone, unlike many other fryers. This maximizes frying capacity and evenly heats all products to the perfect temperature so you can continue to provide your customers with donuts, funnel cakes, and other fried products. In addition, the products are able to float freely as they cook, perfect for pastries or hushpuppies.

WARNING: This product can expose you to chemicals including lead, which are known to the State of California to cause cancer, birth defects, or other reproductive harm. For more information, go to <u>www.p65warnings.ca.gov</u>.
