### Notes & Details

This Avantco Ice 19454000 ice full sensor serves as a direct replacement for the one that comes with your Avantco Ice undercounter bullet ice machine. It is designed to detect when the ice bin has become full so it no longer creates ice. If this part is no longer working effectively, be sure to swap it out with an operational one. It's compatible with Avantco Ice UC-B-77-A undercounter bullet ice machines.
