## Avantco Ice KMC-420-B2F 22" Air Cooled Modular Full Cube Ice Machine with Bin - 399 lb.

Item #194KMC420B2F

### Technical Data

Width	22 Inches
Depth	32 11/16 Inches
Height	67 11/16 Inches
Amps	9.4 Amps
Hertz	60 Hertz
Phase	1 Phase
Voltage	115 Volts
24 Hour Ice Yield	399 Pounds
Ambient Temperature Range	40 - 90 Degrees F
Bin Storage Capacity	275 lb.

### Features

- Makes up to 399 lb. of full cube ice per day; Ice storage bin capacity 275 lb.
- Durable 304 stainless steel exterior with a polyethylene interior
- Digital controller allows user to quickly identify issues and the current stage of production
- Includes bright LED lights and a removable air filter
- R290 refrigerant; 115V; NEMA 5-15P

### Certifications

5-15P

ETL Sanitation

ETL, US & Canada

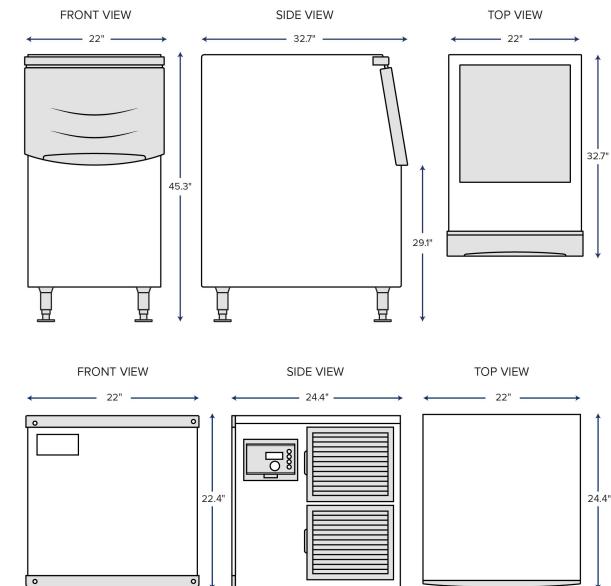

3/4" Water Connection

3/4"

## Technical Data

<b>BTU Per Hour</b>	3207 BTU
<b>Condenser Type</b>	Air Cooled
<b>Ice Type</b>	Full Size Cubes
<b>Installation Type</b>	Modular
<b>Material</b>	Stainless Steel
<b>Plug Type</b>	NEMA 5-15P
<b>Power kWh/100 lbs. Ice</b>	5.2 kWh
<b>Refrigerant Type</b>	R-290
<b>Type</b>	Ice Machines with Bins
<b>Water Inlet Size</b>	3/4 Inches
<b>Water Pressure Range</b>	18 3/4 - 80 PSI
<b>Water Temperature Range</b>	40 - 90 Degrees F
<b>Water Usage</b>	15 Gallons Per 100 lbs.

## Plan View

## Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice KMC-420-B2F 22" air cooled modular full cube ice machine with bin! Capable of producing up to 399 lb. of full cube ice per day, you'll always have plenty of ice to serve on demand. At only 22" in width, this narrow unit is great for tight bars, kitchens, and coffee shops. An included ice bin holds up to an impressive 275 lb. of ice, making it ideal for busy establishments that can not afford long periods of down-time while ice is being made. Also included is an ice scoop and a hook to hang it on so it is always within convenient reach when you need it.

For ease of maintenance, a built in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in. Constructed of durable type 304 stainless steel with a polyethylene interior, this unit is built to last in the busiest commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. With (4) 6" adjustable legs, you can level your machine on uneven surfaces and have plenty of room to clean under it. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch water filter to the machine to ensure you are serving the cleanest and freshest ice possible. Designed for side-breathing and rear exhaust, you can avoid hot air being blown outward into your kitchen or service area. This unit requires a 115V electrical connection for operation.

**⚠️ WARNING:** This product can expose you to chemicals including lead, which are known to the State of California to cause cancer, birth defects, or other reproductive harm. For more information, go to [www.p65warnings.ca.gov](http://www.p65warnings.ca.gov).
