

Item #: 194KMC420L2H Project: _____

Qty: _____ Date: _____ Approval: _____

Avantco Ice KMC-420-L2H 22" Air Cooled Modular Half Cube Ice Machine with Ice Bin - 420 lb.

Item #194KMC420L2H

Technical Data

| | |
|---------------------------|-------------------|
| Width | 22 Inches |
| Depth | 34 Inches |
| Height | 66 3/8 Inches |
| Bin Width | 22 Inches |
| Bin Depth | 34 Inches |
| Bin Height | 44 Inches |
| Amps | 9.4 Amps |
| Voltage | 115 Volts |
| 24 Hour Ice Yield | 420 Pounds |
| Ambient Temperature Range | 40 - 90 Degrees F |

Avantco Ice Machines

Certifications

5-15P

ETL Sanitation

ETL, US & Canada

3/4" Water Connection

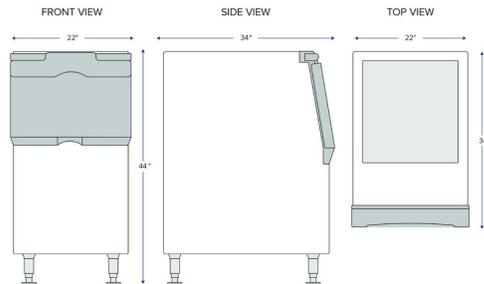

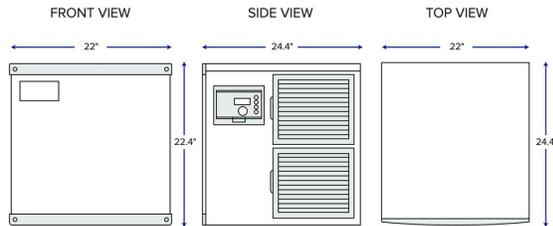

NSF Listed

Technical Data

| | |
|-------------------------|----------------------------|
| Bin Storage Capacity | 383 lb. |
| BTU Per Hour | 3207 BTU |
| Condenser Type | Air Cooled |
| Drain Outlet Size | 3/4 Inch |
| Exterior Material | Metallic Alloy |
| Features | LED Lighting NSF Listed |
| Ice Type | Half Size Cubes |
| Installation Type | Modular |
| Interior Material | Polyethylene |
| Plug Type | NEMA 5-15P |
| Power Usage | 5.2 kWh per 100 lbs. |
| Refrigerant Type | R-290 |
| Type | Ice Machines with Bins |
| Water Inlet Size | 3/4 Inches |
| Water Pressure Range | 18 3/4 - 80 PSI |
| Water Temperature Range | 40 - 90 Degrees F |
| Water Usage | 15 Gallons Per 100 lbs. |

Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice KMC-420-L2H 22" air cooled modular full cube ice machine with bin! Capable of producing up to 420 lb. of half cube ice per day, you'll always have plenty of ice to serve on demand at your restaurant, bar, or cafe. An included ice bin holds up to an impressive 383 lb. of ice, making it ideal for busy establishments that can not afford long periods of down-time while ice is being made. The ice bin features a durable metallic alloy exterior with a polyethylene interior. Also included is an ice scoop and a hook to hang it on so it is always within convenient reach when you need it.

For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in. Plus, the ice bin has a 3/4 FTP drain fitting.

The ice machine is constructed of durable metallic alloy with a polyethylene interior to last in the busiest of commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. With (4) 6" adjustable legs, you can level your machine on uneven surfaces and have plenty of room to clean under it. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch+ water filter to the machine to ensure you are serving the cleanest and freshest ice possible. Designed for side-breathing and rear exhaust, you can avoid hot air being blown outward into your kitchen or service area. This unit requires a 115V electrical connection for operation.
