Notes & Details

Make sure you've always got plenty of fresh ice on hand with the Avantco Ice KMC-F-430-BA 30" air cooled modular full cube ice machine with bin! Capable of producing up to 397 lb. of full cube ice per day, you'll always have plenty of ice to serve on demand. Not only that, with an included ice bin that holds an impressive 375 lb. of ice, this ice machine and bin duo are perfect for preventing periods of downtime while ice is being made. Bright LED lights illuminate the ice bin and this kit also comes with an ice scoop for a complete set.

For ease of maintenance, a built in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in.

Thanks to their durable type 304 stainless steel construction with polyethylene interiors, these units are built to last, and at only 30" in width, are great for kitchens where space is at a premium. Plus, (4) 6" adjustable legs stabilize the unit on uneven floors. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. The ice machine comes with pre-drilled holes on the back of the unit to mount your OceanLoch water filter (sold separately) to the machine to ensure you are serving the cleanest and freshest ice possible. The ice machine is also designed for side-breathing and rear exhaust, which prevents hot air from being blown outward into your kitchen or service area. This unit requires a 115V electrical connection for operation.

Kit Includes:

- Avantco Ice KMC-F-430-BA 30" air cooled modular full cube ice machine - 397 lb.
- Avantco Ice BIN27530 30" ice storage bin - 375 lb.
- Sanitary ice scoop
