|----------------------|--|
| Ice Dispenser Width | 22 Inches |
| Ice Machine Width | 22 Inches |
| Overall Width | 22 Inches |
| Ice Dispenser Depth | 33 1/2 Inches |
| Ice Machine Depth | 24 3/8 Inches |
| Overall Depth | 33 1/2 Inches |
| Ice Dispenser Height | 47 1/4 Inches |
| Ice Machine Height | 22 3/8 Inches |
| Overall Height | 69 5/8 Inches |
| Phase | 1 Phase |
| Voltage | 115 Volts |
| 24 Hour Ice Yield | 300 to 500 Pounds 344 Pounds |
| Capacity | 120 lb. |
| Color | Silver |
| Condenser Type | Air Cooled |
| Dispenser Style | Push Button |
| Exterior Material | Stainless Steel |
| Ice Type | Half Size Cubes |
| Installation Type | Modular |
| Interior Material | Polyethylene |
| NSF Listed | Yes |
| Plug Type | NEMA 5-15P |
| Refrigerant Type | R-290 |
| Stainless Steel Type | Type 304 |
| Type | Hotel Ice Machines Modular Ice Dispensers |
| Water Inlet Size | 3/4 Inches |

Features

- Makes up to 350 lb. of half cube ice per day and includes a dispenser with a capacity of 120 lb.
- Durable 304 stainless steel ice machine and corrosion-resistant metallic cabinet
- Digital controller allows user to quickly identify issues and the current stage of production
- Removable air filter for quick cleaning and maintenance
- Eco-friendly R290 refrigerant; 115V

Notes & Details

Make sure you've always got plenty of fresh ice on hand and easily accessible with the 22" air cooled modular half cube ice machine with dispenser! Capable of producing up to 344 lb. of half cube ice per day, you'll always have plenty of ice to serve on demand at your hotel, bar, or cafe. An included ice dispenser holds up to 120 lb. of ice and features a deep sink to accommodate hotel ice buckets of almost any size.

For ease of maintenance, a built-in diagnostic system will identify problems that your ice machine may be having and will display the issue on the digital controller so it can be repaired accordingly. This easy-to-use controller can also be used to monitor the current stage of ice production that your machine is in. It allows you to adjust the bridge thickness up or down to maximize your harvest into individual cubes of ice, rather than full sheets. It also initiates the cleaning cycle and displays what stage of the cycle you're in. Plus, the ice dispenser has a 3/4 FTP drain fitting.

Constructed of durable type 304 stainless steel with a polyethylene interior, this unit is built to last in the busiest commercial environments. A nickel plated evaporator and removable air filter make for quick and simple cleaning and maintenance. With (4) 6" adjustable legs, you can level your machine on uneven surfaces and have plenty of room to clean under it. This ice machine also comes with pre-drilled holes on the back of the unit to mount your OceanLoch water filter to the machine to ensure you are serving the cleanest and freshest ice possible. Designed for side-breathing and rear exhaust, you can avoid hot air being blown outward into your kitchen or service area. This unit requires a 115V electrical connection for operation.
