## Notes & Details

Make food preparation as convenient as possible with the Avantco 27" worktop freezer. With a spacious stainless steel worktop surface for slicing, dicing, assembling, mixing, and other food prep tasks, the unit features a 3 1/2" backsplash for wall protection and freezer storage space below. It is readily accessible through the door, which opens up to a shelf that helps you organize your ingredients and best utilize the roomy interior. Plus, because it accommodates up to 66.14 lb., the included PVC-coated wire shelf is well equipped for holding heavy bulk ingredients, from frozen broccoli and cauliflower to frozen pork chops.

This unit is designed for outstanding durability to ensure that it withstands tough, busy kitchens with ease. It features a 430 type stainless steel exterior, which provides both strength and a smooth, sleek appearance. The painted aluminum interior with a 304 type stainless steel floor also offers the stability necessary for heavy, regular use. It comes with 4 reliable casters, 2 of which are braking casters, for easy mobility around your establishment.

This worktop freezer ensures optimal performance by operating with a 1/3 hp refrigeration system that circulates R-290 hydrocarbon refrigerant to maintain temperatures from -8 to 0 degrees Fahrenheit. R-290 refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. The foamed-in-place polyurethane insulation is CFC- and HCFC-free and helps to maintain interior temperatures.

Operation of the freezer is easy, thanks to a variety of special features, including an interior wall-mounted thermometer, auto-defrost, and pre-programmed digital controller. At the end of the day, take advantage of the casters and roll the unit aside to thoroughly clean the area as needed. This worktop freezer requires a 115V electrical connection for operation and comes with a 7' power cord.
