## Notes & Details

Keep bottles of beer or soda on hand at all times by storing them in this Avantco HBB-25-HC 25" bottle cooler! Maintaining temperatures from 33 to 40 degrees, the cooler provides 4.1 cu. ft. of interior storage to ensure that a wide supply of bottles are kept cold and ready for thirsty customers. For your utmost convenience, a bottle opener / cap catcher is included with the unit. Just grab a beer, use the opener, and serve!

This unit is designed for outstanding durability to ensure that it withstands service through even your busiest days and nights. It features a black epoxy-coated steel exterior and a painted aluminum interior. A stainless steel lid opens and closes with ease, making for easy drink retrieval. Because it locks, the lid also secures your beverage selection, making sure that your supply is always safe.

This cooler guarantees optimal performance by operating with a 1/4 hp refrigeration system that circulates R290 refrigerant to maintain temperatures from 33 to 40 degrees Fahrenheit. R290 refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. Plus, the foamed-in-place polyurethane insulation adds rigidity and promotes proper temperatures. This ensures that all beverages held in the unit are at the perfect serving temperature.

You can adjust the cooler with the digital temperature controller as needed, and maintain the unit with its auto-defrost function. This unit requires a 115V electrical connection for operation.
