## Notes \& Details

Keep bottles of beer or soda on hand at all times by storing them in this Avantco 65" bottle cooler! Maintaining temperatures from 33 to 40 degrees, the cooler provides 17.5 cu . ft. of interior storage to ensure that a wide supply of bottles are kept cold and ready for thirsty customers. It even features 3 epoxy coated steel dividers inside to keep bottles organized and readily accessible. For your utmost convenience, a bottle opener / cap catcher is included with the unit. Just grab a beer, use the opener, and serve!

This unit is designed for outstanding durability to ensure that it withstands service through even your busiest days and nights. It features a black coated steel exterior and a painted aluminum interior. Two stainless steel lids open and close with ease, making for easy drink retrieval. Because they lock, the lids also secure your beverage selection, making sure that your supply is always safe.

This cooler guarantees optimal performance by operating with a $1 / 4 \mathrm{hp}$ refrigeration system that circulates R290 refrigerant to maintain temperatures from 33 to 40 degrees Fahrenheit. R290 refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3 . The foamed-in-place polyurethane insulation provides the cooler with additional structural integrity and ensures that all beverages held in the unit are at the perfect serving temperature.

You can adjust the cooler with the digital temperature controller as needed, and maintain the unit with its autodefrost function. This unit requires a 115 V electrical connection for operation.
