

Avantco MC34-HC 34" School Milk Cooler

Item #178MC34HC

Technical Data

Width	34 Inches
Depth	30 5/8 Inches
Height	41 3/8 Inches
Interior Width	30 7/8 Inches
Interior Depth	27 Inches
Interior Height	25 3/4 Inches
Amps	1.33 Amps
Hertz	60 Hertz
Phase	1 Phase
Voltage	115 Volts
Access Type	Single Sided
BTU (LBP)	881
Capacity	12.4 cu. ft.
Compressor Location	Bottom Mounted
Crate Capacity	8 Crates
Door Style	Swing
Door Type	Solid
Finish	White
Horsepower	1/3 HP
Number of Doors	1 Doors
Plug Type	NEMA 5-15P
Refrigerant Type	R-290
Refrigeration Type	Cold Wall
Temperature Range	33 - 40 Degrees F

Features

- Holds up to 8 milk crates
- Environmentally-friendly R290 refrigerant
- Cold wall refrigeration system
- Digital thermostat read-out and auto defrost function
- 115V; 1/3 hp; 1.33 Amps

Certifications

5-15P

ETL US

Notes & Details

Keep your operation well stocked with cold, refreshing milk for the lunch-time rush with this Avantco MC34-HC 34" milk cooler! Able to accommodate up to 8 milk crates, this unit is an excellent addition to any school cafeteria. This unit features a sleek white coated steel exterior with a stainless steel fold down door and flip-top lid, providing students and cafeteria staff easy access to the contents inside, while a lock with keys prevents theft and tampering during off-hours.

To keep milk between 33 and 40 degrees Fahrenheit, this durable milk cooler utilizes a cold wall style refrigeration system with a 1/3 hp compressor, and an adjustable thermostat with a digital readout on the back of the unit. And, an auto-defrost function runs several times a day, keeping the unit operating in tip-top shape. The cooler features R290 refrigerant, which has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3, making it an environmentally-responsible choice for your business. You'll also love its cleanability, made easy with a 304 stainless steel interior that resists corrosion, and a bottom drain plug to remove any spills. This unit requires a 115V electrical connection for operation.
