## Notes & Details

Create a convenient cold food serving area with this Avantco SS-CFT-72-HC 72" stainless steel refrigerated salad bar / cold food table! It's a sleek addition to any buffet, cafeteria, or other front-of-house area.

The construction of this unit is designed with commercial use in mind. It features a 430 type stainless steel exterior and 304 type stainless steel interior, which are fortified with foamed-in-place polyurethane insulation. The insulation also helps to promote proper temperature retention. The unit can accommodate up to (15) 1/3 size or (30) 1/6 size 8" deep food pans (sold separately). These are great for holding common sandwich or salad toppings, from eggs and cheese to green pepper or ham. (3) 21 5/8" x 17 1/8" plastic-coated steel shelves are included and each accommodate up to 88 lb. of weight, helping to organize your assorted supplies in the refrigerated cabinet. The cabinet is easily accessed by a full-length stainless steel handle on each door.

High-quality performance is made possible by the unit's 2/3 hp refrigeration system, which maintains temperatures between 33 and 40 degrees Fahrenheit. It does this by circulating R290 refrigerant. This specialized refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3.

For operation, this table requires a 115V electrical connection.
