

Item #: 178SSPTAC7112 Project: _____

Qty: _____ Date: _____ Approval: _____

Avantco SS-PT-70-12-AC 70" 3 Door Stainless Steel ADA Height Refrigerated Sandwich Prep Table with Workstation and Extra Deep Cutting Board

Item #178SSPTAC7112

Technical Data

Width	70 3/8 Inches
Depth	33 Inches
Height	40 1/8 Inches
Power Cord Length	84 Inches
Cutting Board Width	70 3/8 Inches
Interior Width	66 1/2 Inches
Nominal Width	72 Inches
Cutting Board Depth	15 Inches
Interior Depth	23 1/2 Inches
Interior Height	19 3/4 Inches

Features

- 2 3/4" casters bring the unit to an ADA-compliant working height
- Top accommodates (12) 1/6 size, 6" deep food pans and includes a workstation
- Industry-best 3/4" thick, 15" deep cutting board adds 3 1/2" of additional workspace
- Corrosion-resistant stainless steel exterior and interior; foamed-in-place polyurethane insulation
- Easy-to-read digital temperature control with auto defrost; 115V; R290 refrigerant; 5/6 hp; 8.9 Amps

Certifications

5-15P

ETL Sanitation

ETL, US & Canada

ADA Compliant

Technical Data

Work Surface Height	33 Inches
Amps	8.9 Amps
Hertz	60 Hertz
Phase	1 Phase
Voltage	115 Volts
1/6 Size Pan Capacity	12 Pans
Access Type	Doors
BTU (LBP)	2107 BTU
Capacity	19.5 cu. ft.
Casters	With Casters
Color	Silver
Compressor Location	Rear Mounted
Compressor Style	Side / Rear Breathing
Construction	Stainless Steel
Cutting Board Thickness	3/4 Inches
Door Style	Swing
Door Type	Solid
Features	ADA Compliant Removable Magnetic Door Gaskets
Horsepower	0.8330000042915344 HP
Individual Shelf Capacity	88 lb.
Number of Doors	3 Doors
Number of Shelves	3 Shelves
Plug Type	NEMA 5-15P
Refrigerant Type	R-290
Style	ADA Height
Temperature Range	33 - 40 Degrees F
Top Capacity	318 lb.
Top Type	Standard Top Workstation Refrigerators
Type	Prep Refrigeration

Notes & Details

Optimize your back-of-house operations and better keep up with customer demands with this Avantco SS-PT-70-12-AC 70" 3 door stainless steel ADA height refrigerated sandwich prep table with workstation and extra deep cutting board! Whether used in a university, sub shop, or hospital, this ADA height unit is sure to help streamline the sandwich prep process with its convenient features and capacity. This unit has a workstation, allowing users to place condiments, utensils, and even a cash register on the unit without sacrificing cutting board space!

Its top accommodates up to (12) 1/6 size food pans up to 6" deep (sold separately). These are great for holding common sandwich or salad toppings, from eggs and cheese to green pepper or ham. Plus, a lift-up lid encloses the top to maintain proper, food-safe temperatures.

A full-length cutting board, which has an extended 15" depth, is mounted to the table surface, providing a place for slicing ingredients and assembling orders. This industry-best cutting board is 3/4" thick for added durability and reliability. It is built-in to the unit for convenient prep space and can be easily removed for cleaning.

Beneath the workspace is additional storage space. Because it's refrigerated, the space is great for storing back-up ingredients, such as deli meat and cheese, as well as less common toppings. three epoxy-coated steel shelves are included and can each accommodate up to 88 lb. of weight, helping to organize your assorted supplies. The three solid swing doors allow users to quickly grab supplies without interrupting workflow.

High quality performance is made possible by the unit's 5/6 hp refrigeration system, which maintains temperatures between 33 and 40 degrees Fahrenheit. It does this by circulating R290 refrigerant. This specialized refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. Plus, the easy-to-read digital temperature control with auto defrost makes adjusting and maintaining specific temperatures easier than ever!

The unit has a corrosion-resistant construction and is designed with commercial use in mind. It features a 430 type stainless steel exterior and a 201 type stainless steel interior, which is fortified with foamed-in-place polyurethane insulation. The insulation also helps to promote proper temperature retention. The 2 3/4" casters make moving simple for easy cleaning and bring the unit to an ADA-compliant working height. For operation, the prep table requires a 115V electrical connection.
