Qty: _____ Date: _____ Approval: _____

Avantco SS-UC-36F-HC 36" Stainless Steel ADA Height Undercounter Freezer

Item #178SSUC36FA

Technical Data

Width	36 1/4 Inches
Depth	29 1/2 Inches
Height	33 5/8 Inches
Power Cord Length	84 Inches
Interior Width	33 Inches
Interior Depth	22 7/8 Inches
Interior Height	23 1/2 Inches
Work Surface Height	33 5/8 Inches
Amps	1.91 Amps
Phase	1 Phase

Features

- 2 1/2" casters make moving simple for easy cleaning and bring the unit to an ADA-compliant working height
- Strong and sleek type 430 stainless steel exterior and type 304 stainless steel interior for maximum durability
- Foamed-in-place polyurethane maintains temperatures from -8 to -1 degrees Fahrenheit
- Easy-to-read digital temperature controller and auto-defrost function
- 115V; 1/2 hp; 1.9 Amps

Certifications

Technical Data

Voltage	115 Volts
Access Type	Doors
BTU (LBP)	1264 BTU
Capacity	8.2 cu. ft.
Compressor Location	Side Mounted
Door Style	Swing
Door Type	Solid
Features	ADA Compliant Removable Magnetic Door Gaskets
Hinge Location	Left/Right
Horsepower	1/2 HP
Number of Doors	2 Doors
Number of Shelves	2 Shelves
Plug Type	NEMA 5-15P
Refrigerant Type	R-290
Style	ADA Height
Temperature Range	-8 -- -1 Degrees F
Top Capacity	318 lb.
Type	Freezers Undercounter Freezers

Notes & Details

Make frozen food storage as convenient as possible with the Avantco 36" undercounter freezer. With a spacious freezer portion readily accessible through its two doors, the unit opens up to two shelves to help you organize your ingredients and best utilize the interior space. Plus, because they each accommodate up to 90 lb., the epoxy-coated steel shelves are well equipped for holding heavy bulk ingredients, from frozen broccoli and cauliflower to frozen pork chops.

This unit is designed for outstanding durability to ensure that it withstands tough, busy kitchen environments with ease. It features a type 430 stainless steel exterior, which provides both strength and a smooth, sleek appearance. The interior, made with type 304 stainless steel, also offers the durability necessary for heavy, regular use. Because of its low, undercounter design, the unit can effortlessly add frozen storage space without requiring space devoted solely to its footprint.

This freezer ensures optimal performance by operating with a 1/2 hp refrigeration system that circulates R290 hydrocarbon refrigerant to maintain temperatures from -8 to -1 degree Fahrenheit. R290 refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. The foamed-in-place polyurethane insulation helps to trap in the cold air and to prevent the ambient air from entering. This ensures that all food held in the unit remains at food safe temperatures and ready for preparation or direct service to customers!

Operation of the freezer is easy, thanks to its special features. Monitor it by consulting the interior wall-mounted thermometer, and use the auto-defrost feature on the pre-programmed digital controller to maintain the freezer in tip-top shape. At the end of the day, take advantage of the casters and roll the unit aside to thoroughly clean the area. This undercounter freezer requires a 115V electrical connection for operation.
