## Notes & Details

Make food preparation as convenient as possible with the Avantco SS-WT-60F-HC 60" worktop refrigerator. With a spacious stainless steel worktop surface for slicing, dicing, assembling, mixing, and other food prep tasks, the unit features a 3 1/2" backsplash for wall protection and a refrigerated storage space below. The refrigerated portion is readily accessible through the two doors, which open up to two shelves to help you organize your ingredients and best utilize the spacious interior. Plus, because they each accommodate up to 90 lb., the epoxy-coated steel shelves are well equipped for holding heavy bulk ingredients, from fresh produce to sauces, glazes, and other specialty condiments and garnishes.

This refrigerated unit is designed for outstanding durability to ensure that it withstands tough, busy kitchen environments with ease. It features a 430 type stainless steel exterior, which provides both strength and a smooth, sleek appearance. The interior, made with 304 type stainless steel, also offers the durability necessary for heavy, regular use. For long-lasting quality assurance and peace of mind, this unit comes with a 2 year Parts and Labor Warranty.

This worktop refrigerator ensures optimal performance by operating with a 2/3 hp refrigeration system that circulates R290 hydrocarbon refrigerant to maintain temperatures from 33 to 40 degrees Fahrenheit. R290 refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. The foamed-in-place polyurethane insulation provides the worktop with additional structural integrity and ensures that all food held in the unit remains at food safe temperatures and ready for preparation or direct service to customers!

Operation of the refrigerator is easy, thanks to its special features. Monitor it by consulting the interior wall-mounted thermometer, and use the auto-defrost feature on the pre-programmed digital controller to maintain the refrigerator in tip-top shape. 2 1/2" casters make moving simple for easy cleaning and bring the unit to an ADA-compliant working height. This worktop refrigerator requires a 115V electrical connection for operation.
