Notes & Details

Whether replacing a broken tap tower or adding additional capacity to your tap line, this Avantco 178TOWERQUAD 4-tap tower is the perfect way to serve up the frosty draft beers that your customers crave! This tap tower has a 3" standard column size, which makes it compatible with any branded beer dispensers that utilize a 3" width for the beer towers. The column is made from stainless steel with a polished chrome finish.

The air-cooled design keeps all your beers chilled to perfection, while the 11" faucet height easily accommodates glasses of all sizes. A chrome-plated brass faucet design ensures a polished look and maximum durability. Best of all, this tap tower comes with 4 hoses to get the beer flowing right away. To mount it on your kegerator or bar setup, it also includes the necessary mounting hardware.
