Notes & Details

Whether replacing a broken tap tower or adding additional capacity to your tap line, this Avantco 178TOWERSGL 1 tap tower is the perfect way to serve up the frosty draft beers that your customers crave! This tap tower is air-cooled to keep all your beers chilled to perfection, and its 9 3/4" faucet height easily accommodates glasses of all sizes. A chrome-plated brass design ensures a polished look and maximum durability.

Best of all, this tap tower comes with everything you need to get the beer flowing, including a 5' hose. To mount it on your kegerator or bar setup, it also includes a gasket and the necessary mounting hardware.
