Notes & Details

Optimize the space behind your bar by adding refrigerated storage with this Avantco UBB-2G-HC 59" stainless steel counter height glass door back bar refrigerator! Providing 19.4 cu. ft. of interior storage space, the unit comes with one shelf that accommodates up to 88 lb. or (2) 1/2 kegs total. They're even illuminated by bright LED lighting for optimal product visibility. The epoxy-coated steel shelf is perfect for storing and organizing heavy bulk ingredients for your bar service, from bottles of ale to bottles of cider. Plus, since the unit is rated to safely store food products, it provides versatility and helps you maximize the space you have available.

The interior, made of strong 304 type stainless steel, is accessible through a glass door. Because it's made of glass, the door provides excellent product visibility, enabling you to easily view your current drink or ingredient selection for efficient drink preparation. For overall durability, the unit's exterior is made with stainless steel and is topped with a type 304 stainless steel surface.

This back bar refrigerator ensures optimal performance by operating with a 1/4 hp refrigeration system that circulates R290 hydrocarbon refrigerant to maintain temperatures from 33 to 40 degrees Fahrenheit. R290 refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3, making it an energy-efficient choice for your business. The foamed-in-place polyurethane insulation provides the refrigerator with additional structural integrity and ensures that all products held in the unit remain at cool temperatures and are ready for immediate service to customers!

Delivering ease of use and maintenance, the refrigerator is easy to adjust with a digital temperature controller and features automatic defrost. Overall, the unit requires a 115V electrical connection for operation and even comes with adjustable feet for simple, convenient leveling.
