Notes & Details

Optimize the space behind your bar by adding refrigerated storage with this Avantco UBB-2G-HC 59" counter height back bar refrigerator! Providing 19.4 cu. ft. of interior storage space, the unit fits up to (2) 1/2 kegs and houses four epoxy-coated shelves that each accommodate up to 88 lb. The interior is illuminated by bright LED lighting for optimal product visibility. The epoxy-coated steel shelves are perfect for storing and organizing drinks for your bar service, from bottles of ale to bottles of cider.

The interior, made of strong 304 type stainless steel, is accessible through two glass doors. Because they're made of glass, the doors provide excellent product visibility, enabling you to easily view your current drink or ingredient selection for efficient drink preparation. For overall durability, the unit's exterior is made with black coated steel and is topped with a type 304 stainless steel surface.

This back bar refrigerator ensures optimal performance by operating with a 3/7 hp refrigeration system that circulates R290 hydrocarbon refrigerant to maintain temperatures from 33 -40 degrees Fahrenheit. R290 refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3, making it an energy-efficient choice for your business. The foamed-in-place polyurethane insulation provides the refrigerator with additional structural integrity and ensures that all beverages held in the unit remain at cool temperatures and are ready for immediate service to customers! The unit requires a 115V electrical connection for operation and even comes with adjustable feet for simple, convenient leveling.
