ETL Sanitation

Technical Data

Width	90 1/4 Inches
Depth	27 3/4 Inches
Height	36 1/4 Inches
Power Cord Length	102 Inches
Interior Width	77 3/4 Inches
Packaging Width	91.75
Shelf Width	22 1/2 - 24 3/4 Inches
Nominal Depth	Standard
Packaging Depth	30.5
Shelf Depth	21 1/2 Inches
Interior Height	30 1/2 Inches
Packaging Height	41.75
Amps	2.4 Amps
Hertz	60 Hertz
Phase	1 Phase
Voltage	115 Volts
Access Type	Doors
BTU (LBP)	974
Capacity	(4) 1/2 Kegs 32.4 cu. ft.
Casters	Without Casters
Compressor Location	Side Mounted
Countertop Type	Stainless Steel
Door Style	Swing
Door Type	Solid
Exterior Finish	Black
Features	Automatic Electric Defrost Digital Temperature Controller Food Rated LED Lighting
Horsepower	1/2 HP
Individual Shelf Capacity	90 lb.
Insulation Material	Polyurethane Foam
Material	Black Coated Steel/Stainless Steel
Maximum Ambient Temperature	90 Degrees F
Net Weight	364 lb.
Number of Doors	3 Doors
Number of Kegs	4 Kegs
Number of Shelves	6 Shelves
Plug Type	NEMA 5-15P
Refrigerant Type	R-290
Shelf Material	Epoxy-Coated Steel
Temperature Range	33 - 40 Degrees F
Top Type	Counter Height

Notes & Details

Optimize the space behind your bar by adding refrigerated storage with this Avantco UBB-4-HC 90" counter height back bar refrigerator! Providing 32.4 cu. ft. of interior storage space, the unit fits up to (4) 1/2 kegs and houses six epoxy-coated shelves that each accommodate up to 90 lb. The interior is illuminated by bright LED lighting for optimal product visibility. The epoxy-coated steel shelves are perfect for storing and organizing drinks for your bar service, from bottles of ale to bottles of cider.

The interior, made of strong 304 type stainless steel, is accessible through three solid doors. For overall durability, the unit's exterior is made with black coated steel and is topped with a type 304 stainless steel surface.

This back bar refrigerator ensures optimal performance by operating with a 1/2 hp refrigeration system that circulates environmentally-friendly R290 hydrocarbon refrigerant to maintain temperatures from 33 -40 degrees Fahrenheit. R290 refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3, making it an environmentally-responsible choice for your business. The foamed-in-place polyurethane insulation provides the refrigerator with additional structural integrity and ensures that all beverages held in the unit remain at cool temperatures and are ready for immediate service to customers! The unit requires a 115V electrical connection for operation.
