## Plan View

## Notes & Details

Optimize the space behind your bar by adding refrigerated storage with this Avantco UBB-60-HC 60" counter height narrow back bar refrigerator! Providing 17.3 cu. ft. of interior storage space, the unit fits up to (2) 1/2 kegs and houses 4 shelves that each accommodate up to 88 lb. The epoxy-coated steel shelves are perfect for storing and organizing beverages for your bar service, from bottles of ale and beer to cans of crisp ciders. Plus, with a narrow design, the unit fits in spaces other units can't, helping you to maximize the space you have available.

The interior, made of strong 304 type stainless steel, is accessible through two solid doors. For overall durability, the unit's exterior is made with black coated steel and is topped with a type 304 stainless steel surface.

This back bar refrigerator ensures optimal performance by operating with a 3/7 hp refrigeration system that circulates R290 hydrocarbon refrigerant to maintain temperatures from 33 to 40 degrees Fahrenheit. R290 refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3, making it an energy-efficient choice for your business. The foamed-in-place polyurethane insulation provides the refrigerator with additional structural integrity and ensures that all beverages held in the unit remain at cool temperatures and are ready for immediate service to customers! The unit requires a 115V electrical connection for operation and even comes with adjustable feet for simple, convenient leveling.
