Notes & Details

Optimize the space behind your bar by adding refrigerated storage with this Avantco UBB-72S-GT-S 73" stainless steel underbar height narrow sliding glass door back bar refrigerator with LED lighting! Conveniently store a variety of bottles behind the bar so that they're ready to serve at all times, and gain 21.6 cu. ft. of refrigerated storage space for your most popular brews, ales, ciders, and other beverages. Its narrow design makes it more compact than similar units, making it ideal for operations that are tight on space.

The galvanized top design is ideal for low height, built-in bars with existing cabinetry. Providing 21.6 cu. ft. of interior storage space, the unit fits up to (3) 1/2 kegs and houses (6) 17 5/8" x 18 1/8" shelves that each accommodate up to 88 lb. The epoxy-coated steel shelves in this food-rated unit are perfect for storing and organizing heavy bulk ingredients for your bar service, from bottles of ale and beer to fresh fruit for mixed drinks and garnishes. The interior, made of strong 304 type stainless steel, is accessible through 3 sliding glass doors, taking up less precious space behind the bar and making it easy to grab drinks and garnishes quickly. This unit features easy-to-use digital temperature controls to make setting and changing the temperature simple. In addition, this refrigerator has interior LED lighting to maximize product visibility. Even if your bar area is dimly lit, bartenders and servers will have no trouble finding the drinks and garnishes they need. For overall durability, the unit's exterior is made with sleek stainless steel.

This back bar refrigerator ensures optimal performance by operating with a 3/7 hp refrigeration system that circulates R290 hydrocarbon refrigerant to maintain temperatures from 33-40 degrees Fahrenheit. R290 refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3, making it an energy-efficient choice for your business. The foamed-in-place polyurethane insulation helps to maintain internal temperatures and adds rigidity to the body's structure. This unit requires a 115V electrical connection for operation and even comes with adjustable feet for simple, convenient leveling. For long-lasting quality assurance and peace of mind, this unit also comes with a 2 year Parts and Labor Warranty.
