Notes & Details

Whether you operate a pub, banquet hall, catering service, or facilitate other special events, this Avantco UDD-36-HC-S 36" black triple tap kegerator beer dispenser is an excellent way to offer crisp, refreshing draft beer to your guests without investing in a complex built-in tap system! This unit features a triple tap tower with a 10 1/4" faucet height that allows you to easily fill pint glasses and pitchers with local microbrews, international macrobrews, and everything in between.

It holds (1) 1/2 keg and even comes with (2) 23 11/16" x 17 15/16" shelves for optional bottle or can storage. The epoxy-coated steel shelves are perfect for storing and organizing beverages for your bar service, from bottles of ale and beer to cans of crisp ciders. The solid door is not only self-closing to prevent potential energy loss, but also locks to prevent theft during off hours.

Unlike many competitive beer dispensers, this model ships with "D" system couplers so that you can tap kegs right out of the box! This commercial kegerator features a black coated steel exterior, a 201 type stainless steel interior, and a thick stainless steel top that is both durable and extremely simple to clean. A built-in drip tray further expedites end-of-day cleaning.

This unit has a 1/4 hp refrigeration system that circulates R290 hydrocarbon refrigerant. R290 refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. A 115V electrical connection is required for operation.
