Certifications

ETL, US

5-15P

ETL Sanitation

Technical Data

Compressor Location	Bottom Mounted
Display Case Type	Refrigerated
Door Style	Swing
Door Type	Glass
Features	LED Lighting Lighted Interior
Hinge Location	Right
Horsepower	1/2 hp
Installation Type	Freestanding
Interior Color	Clear
Number of Doors	1 Doors
Number of Shelves	4 Shelves
Plug Type	NEMA 5-15P
Refrigerant Capacity	4 oz.
Refrigerant Type	R-290
Sections	1 Section
Temperature Range	33 - 40 Degrees F
Total BTU	1261 BTU
Type	Merchandising Refrigeration

Notes & Details

Increase product visibility and appeal in the front of house with this Avantco BCR-15-HC rose gold circular glass refrigerated display case! This spacious merchandiser is an ideal fit in bakeries, diners, and other establishments that would like to show off their desserts, drinks, and other snacks while keeping them cool. The circular design is immediately noticeable, and the rose gold color is trendy and contemporary. The 360 degree, crystal-clear, double glass panes provide a clear view at all angles for customers while retaining the cool air inside.

Ultra-bright LED lighting inside the cabinet further enhances product visibility. It comes equipped with four glass shelves, which increase versatility in how you organize the contents of the merchandiser. The glass is also easy to clean.

The BCR-15-HC comes equipped with easy-to-use digital controls, which help to ensure precise temperature control. The bottom-mounted compressor allows easy access for cleaning and maintenance, and since hot air rises, it draws air from the coolest part of the kitchen for better running conditions. The compressor circulates R290 refrigerant, which has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3. This unit requires a 115V electrical connection for operation.
